ANNUAL MEETING OF BOARD OF TRADE

COUNCIL FAVERS

SWIMMING POOL

The annual meeting of the Blairmore Board of Trade was held in the Elks' hall on Tuesday night, with President L. L. Morgan presiding.

The election of officers for 1929 resulted as follows:

Honorary presidents—Mr. J. Charbonier, Mayor J. H. Farmer and Mr. G. A. Vissel.

President—L. L. Morgan.

Secretary-Treasurer—W. W. Scott.

Executive—W. A. Beebe, J. A. Kerr, J. E. Gillis, S. G. Biannan, C. J. Tompkins and W. H. Chappell, the executive being reduced from fourteen to six.

Various committees were appointed, and a number of resolutions were passed.

The Board went on record as being in favor of the construction of the proposed swimming pool, as it was felt that the pool was a necessity and would be a real asset to the town.

The Board has joined with the other district boards in getting out 20,000 road maps and in erecting signs on the Red Trail.

EXAMINATIONS UNDER THE MINES ACT

Examinations under the Mines Act for third class certificates are being conducted in Blairmore this week, with Messrs. Moses Johnson, Noble McDonald and Enoch Williams as examiners, representing respectively the mines branch, the mine companies and the workers.

The following candidates are being examined: Joseph H. Bosley, Joseph Christie, David Morris, C. F. L. Fournier d'Albe, A. Fournier d'Albe, C. H. McDonald, Thomas Fairfull, L. Maurice, Leslie McDonald, A. J. Hadwell, Clifford Miller, Clarence Woodward, B. C. Simons, Bellevue H. A. Hulbert, A. Van Schrol, Peter Smith, Coleman, W. J. Phillips, T. D. Walters, Hillcrest; A. E. Rear, Corbin and Charles Mitchell, Pincher Creek.

Examinations for first and second class certificates will be held here on June the 5th, 6th and 7th; and for mine surveyors' certificates on June the 7th.

PUBLIC LIBRARY

More and more books are coming to the Library. This week we acknowledge 53 volumes from Dr. Little and 12 volumes from Mr. D. Macpherson.

Books classified and ready for use now number 1325. Already, we are in the position where we have more books than shelves for them. It is necessary to include another room in the space occupied by the Library. There is no limit to the service that the Library can give to the citizens if the citizens give the Library their whole-hearted support.

TO DISCUSS JULY 1st SPORTS

All interested in a sports program for July 1st, are asked to attend a meeting to be held tomorrow (Friday) evening at 8:30, at the Cosmopolitan hotel.

A hen has been known to live for nineteen and a half years. And some old ones live longer than that.

TOWN OF BLAIRMORE

CLEAN-UP DAY

NOTICE is hereby given that Wednesday next, May 15th, will be observed as Clean-up Day throughout the Town of Blairmore, when all premises are to be cleaned up to comply with the requirements of the Public Health Act.

All trash and refuse must be gathered and removed to the nuisance ground and destroyed.

Parties failing to properly observe the day, or depositing refuse in other places than the nuisance ground, will be prosecuted.

By order of
THE TOWN COUNCIL

ANNUAL MEETING OF BOARD OF TRADE

COUNCIL FAVERS

SWIMMING POOL

At the regular meeting of the town council on Monday night, representatives of the Board of Trade and other organizations were present to back the appeal to the Town for financial assistance towards the proposed swimming pool. The Council declared themselves as favorable to the project, but feared that in order to make the grant applied for, namely \$4000, if may be necessary to appeal to the ratepayers of the municipality.

The minutes of the previous meetings were approved as read, and a number of accounts were passed for payment.

A deputation of ratepayers from the Pelletier Addition, near the old brewery site, waited upon the council asking that their street be graded, etc. Council promised to give the matter consideration.

One application for permit to build, and several offers for purchase of lots were given consideration.

ANNOUNCE REDUCTION IN AMUSEMENT TAX

The existing tax on low priced tickets of admission to such places of amusement and entertainment as moving picture houses, chautauquas, etc., has been cancelled by a recent order-in-council of the Alberta government. Admission prices not exceeding 25 cents will hereafter be exempt from tax, the only exception being places for public dancing. The order is to be effective on June 1st. No change will be made in the case of tickets for which more than 25 cents is charged.

PYTHIAN SISTERS TO OBSERVE ANNIVERSARY

A special meeting of Greenhill Temple No. 10, Pythian Sisters, to be held in the Castle Hall on Wednesday night next, the sixth anniversary of the institution of the lodge will be celebrated.

Invitations have been extended to all sister lodges between Natal and Lethbridge to participate.

The local lodge was instituted on May the 18th, 1923, and has enjoyed six years of real success.

Mexican five pesos bills on the Banco di Mexico have been passed in Calgary recently for five dollars. They resemble the Canadian five-dollar bills, and in the usual way in which money is handled, they are easily passed. A peso is nominally worth about forty-seven cents, and when exchange is added the value in Canada is about fourteen cents, so that the five pesos bill is worth only \$2.20.

Monday, May the 6th, was the day officially proclaimed by the Province of Alberta to be a public holiday throughout the province for the planting of forest and other trees. An idea of how the day set apart was observed in Blairmore may be had from the fact that the number of trees planted here represented one for every thousand of our population.

Mr. E. D. Battaini, secretary of the Alberta Baseball Association, advises that the organization will hold its annual meeting in Calgary on Wednesday next, May the 15th. The most important matters to be transacted will be considering of affiliation with the Amateur Athletic Union and the prohibiting of a player participating in provincial championship games if he has played for any other club during the season.

The ladies of the United church at Kimberley, B.C., recently netted \$327 from a "Made in Canada Sale." Donations were received from a large number of Canadian manufacturing concerns.

Accomplishment

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an application of **Nervilite Acid Stomach Tonic**. It is quick, harmless and efficient. What is **Phillips' Milk of Magnesia**. It has remained for 50 years the standard with physicians. One bottle will neutralize many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

CHAPTER XVIII.—Continued

The rush of wings sounded high in the air as wild ducks passed in swift flight on their yearly pilgrimage to the south. Occasionally a flock would lower in gradually narrowing circles to land with a splash in the restful waters of the lake, then to stretch tired wings, the white bobbing their heads and quacking contentedly. Flocks of geese passed in wedge-shaped formation, their honking coming faintly from a dizzy height. A flock of Arctic swans, skimming so low that the crisp rustle of their wings could be heard, landed in the centre of the lake with a great commotion. There with their beautiful necks proudly arched they floated like white ghosts throughout the night. The red and yellow leaves, like gaudy curtains draped the deciduous trees. The wild crab-apple and high-bush cranberry hung frozen on the naked branches. The sun was succeeded by a ring and phone weekly through a misty haze. The unmistakable breath of the north wind was in the air.

Old John took his traps down from the lot, and oiled them. A patch was found needed to a worn moccasin, and new laces were inserted in his snow-shoes. "Winter's comin' of timer, and we're goin' to have a heavy fall of snow," he mused to himself. For two days Nature gave warning, then on the second night the storm came.

A roaring wind came bellowing from the north, lashing the waters of the lake to foam; tearing at Donald's cabin with the strength of invisible giant hands, and howling through the forest with shrieking wails. Gust came upon gust with increasing strength, and in the short ills could be heard the swish of the steady snow against the windows.

The big trees cracked as they swayed in the gale, and with a loud groan, as if in mortal pain, a huge forest monarch, as its roots gave way, fell crushing down the smaller trees to smite the earth with a resounding crash.

The wind went down through the night, but the snow fell steadily. When Donald opened his door next morning he looked out on a new world. The wizardry of frost and snow had given the earth a blizzard of white that was eye-blinding in its brilliancy under the bright morning sun. The keen frost had locked the lake tight under a coating of clear ice.

CHAPTER XIX.

With a fond hope that he would receive word of the Walnwrights, Donald eagerly awaited the coming of each mail; but after a month of dis-

appointment he became less garrulous, and threw himself desperately into work in a vain attempt to allay his headache.

During the long winter, the mill continued operations in spite of heavy snows, the roads being kept open by the continual traffic.

Janet came twice with gay parties to enjoy the skiing and snowshoeing. She found that she loved Donald, and decided that any uncertainty as to his past was nothing when weighed against her need of him. Eitterly she reproached herself for allowing her pride to estrange him from her, and with all the arts of a beautified and cultured woman she sought to regain the power she once held over him.

On one occasion, when Janet mentioned his "wood-sprite," she saw a rapt look in his eyes and caught her breath sharply. The very thought of him stabb'd her like a knife-thrust.

With the coming of March a change came over the earth. Winter shivered and reluctantly loosed his hold. Gentle showers and warm winds from the south honey-combed the ice on the lake; snowdrifts faded away, and the frost-bound soil gave forth earthy odours in replace the keen smell of the snow.

One morning a song sparrow under Donald's window sent out its sweet "chip - chip - chee - chee - whiss-wiss," and from the top of a swaying alder a wren carried his joy of living in full-throated tones that said that spring was here. Stirred by the warmth and cleaving buds, the frogs came from the mud, where they had lain dormant all winter, and with swelling throats and bulging cheeks sent out their cheerful "k'rum-k'chuk."

Miles covered the lake, and in an open spot near the mouth of the creek a flock of ducks dispersed themselves happily. The sun grew higher with every dawn, gaining strength each day until its warming energy spread the beauty of colour and fragrance over all.

On the afternoon when the air pulsed with the song of birds, and newly-opened buds buzzed the atmosphere with perfume, Donald walked up the hill to Walnwright's cabin.

Scores of birds, returned from their yearly pilgrimage to the south, fitted about the deserted buildings, but there was no golden-haired girl with a welcoming smile to greet them. Rivulets from the melting snows had gouged channels in the once neatly kept plots of wild flowers, and the roof of one of the smaller huts had fallen in.

Donald pushed open the door of the main building and entered. The air felt chill and dank. He experienced a quick depression of spirits, and his heart ached as he surveyed the gloomy interior. He shivered as a pack-rat scuttled across the floor and disappeared under Connie's bunk. With a heavy heart he returned to the bright sunshine, sat down and gave himself over to a period of melancholy retrospection.

FLU Germs Breed In the Throat.

First Appear As A Common Cold, But Gain Tremendous Headway
In Six Hours

SOME SIMPLE PRECAUTIONS AGAINST INFLUENZA

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nervilite. Half a teaspoonful of Nervilite in water makes a most efficient gargle. The germ-killing properties of Nervilite quickly destroy any bacteria in the mouth or throat. If the throat is sore, if the throat is hoarse, if you have a cough—be sure to rub the neck and chest with Nervilite. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding germs. This combination treatment of Nervilite and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

His mind went back to his first meeting with Connie, then on through the many thrilling episodes of the summer. She belonged to high-mountain, to deep forest glades, to companionship with the birds, flowers and trees of God's wild outdoors. She would never be content with the bad air and the cramped conveniences of cities. He suddenly remembered the words she had used that day by the stream near her nest in the cedar. He seemed to hear her sweet, hesitating voice with its pleasant English accent.

"And," she had said, "six months out of every year I'd come right here and live in these mountains."

"She'll come back," he said aloud. "She'll come back," cheered him. "She'll come back," he repeated to Andy that night.

"It's up to you, Donald."

A week later, Robert Remnie, accompanied by his daughter, arrived at Summit Lake. The owner was in high spirits. "I am pleased with the excellent work you are doing here," he said, as he placed a hand in friendly fashion on Donald's arm.

"The mill is a success—a huge success—and I know who deserves the greater share of the credit!" He smiled up at Donald. "Next week," he went on, "an event of importance to the lumber industry takes place. The Government is to entertain a chief forester called at my office to part of Eastern lumbermen. I will tell me that this mill had been selected as the most modern and efficient in the Province, and requested permission to bring the Government's guests here.

"They are to stay here a few days, but you will not be inconvenienced, as the train will be equipped with dining and sleeping-cars, loaned for the occasion by the C.P.R. I will come with them, but I am leaving it to you to arrange for their entertainment and to see that everything is in tip-top condition for their arrival."

Expressing a desire to be at the lake on the arrival of the excursion, Janet remained.

On the day set for the visit of the Eastern capitalists the sun rose in radiant promise of a typical June day. The leaves were now fully matured, and the willows and maples rustled under the soft, warm winds. All the valley was clothed in a variety of colouring, and painting life.

The long train drew slowly into the depot. Its occupants poured out until the small platform was filled to overflowing. Robert Remnie, accompanied by a slender man dressed in a tweed suit and cap, pushed his way through the crowd to Donald's side. Donald greeted his employer, then glanced casually at Mr. Remnie's companion. His eyes widened. "Mr. Walnwright!" he gasped.

Walnwright laughed happily as he wrung Donald's hand.

"Is—is Con—Miss Walnwright with you?" stammered Donald.

(To Be Continued.)

Solitude Reduces Sentence

Many Criminals In France Prefer Isolation For This Reason

In France's modern prison at Fresnes-Rungis, 1250 white-masked prisoners live in absolute silence. They neither see each other's faces or hear their voices. From the moment a metal number is hung around his neck, a prisoner is compelled to wear a white hood whenever he leaves his cell and he may not speak to his fellows. He sees the face of his guard from time to time, but no other, unless he is sent to the hospital or to the ward for discipline. Alone in his cell, he works eight hours a day, but good will and skill enable him to reduce the time to six hours and the money he earns enables him to buy small comforts. The government receives thirty-two cents a day from contractors for each prisoner's work and gives from three-tenths to half the money to the prisoner. The prisoner never sees the money till he leaves, but half of it is placed to his immediate credit for his little expenses. Yet in spite of all that many criminals ask to be sent here because the solitude entitles them to a reduction of one-fourth of their sentence.

Horus—What is a bachelor, Dad?

His Father—A bachelor, my boy, is a man who looks before he leaps and then doesn't leap!

Scientist Makes New Discovery

Says Milk Treated By Wireless Waves Keeps Sweet For Weeks

An Austrian scientist claims to have discovered a method, by which milk treated by wireless waves of short length can be kept sweet for three or four weeks. The new "wireless milk" is produced by passing an intense beam of short waves through the liquid. The milk itself is not heated by this treatment, and does not acquire a "cooked" taste.

Little Helps For This Week

Consider the ills of the field... Matthey vi. 28

Consider then the ills... O heart of mine, today! They neither toll nor spin; Their beautiful array; I would that thou couldst lead a life,

So fearless, sweet as they.

—Margaret E. Sangster.

There is a wise meaning and a gracious design in every tint of the sky's admittance and every curve of its grace. Its symmetry is a type and proof of the divine justice. Its life is co-ordinated, and keeps time with the subordinate motions of the heavens; and its structure and uses are full of the profound teachings of the unspeakable God. And if God thus care for an individual flower—which is to be arranged for their entertainment and to see that everything is in tip-top condition for their arrival?"

As Robert Remnie was walking the next morning he turned to Donald.

"By the way," he said casually, "I have decided to add a yearly bonus to your salary, based on the profits of this mill. I have made it retroactive, from the time you took charge. Before Donald had time to express his thanks, his employer stepped aboard the train.

Expressing a desire to be at the lake on the arrival of the excursion, Janet remained.

On the day set for the visit of the

Potash in British Columbia

Large Scale Fertilizer Industry To Supply the Needs Of Prairie Farmers

"Substantial fortunes are awaiting the prospectors who unearth some of the potash believed to be stored away in the mountains of British Columbia," said George H. Kilburn, of the Consolidated Mining and Smelting Corporation, which is working out a large-scale fertilizer industry at Trail to supply the needs of the Prairie Provinces. Mr. Kilburn mentioned that the company is making free analysis of potash specimens submitted so as to assist prospectors.

Good In Every Way

Baby's Own Tablets Banish Babyhood and Childhood Ailments

A medicament that all mothers praise and all physicians recommend. It will quickly banish the misery of childhood and childhood is the medicine to keep in the medicine chest; to always have on hand in case of an emergency such a medicine as Baby's Own Tablets; they are helpful at all times. They are a mild, but thorough laxative which by regulating the bowels and stomach aids all sorts of fever, cold, rheumatic, constipation and indigestion; relieve colic and diarrhoea; and make the cutting of teeth easy.

—Margaret E. Sangster.

Saskatchewan Famous For Clays

Saskatchewan has a greater va-

riety of clays, in larger quantities and of the higher grades, than any other Canadian province, and will, without doubt, become the centre of a very important ceramic industry.

The clays of Saskatchewan have

been the subject of special investiga-

tions by the Department of Mines, Ottawa.

There are more than 1,024,000 per-

sons by the name of Johnson in the

United States.

The average horn will blow 150,

000 times before wearing out.

Saving Seven Seconds

Many Motorists in Attempting To Have Lost Their Lives

It has been established that seven seconds is the average length of time it takes a fast railroad train to get by a level crossing. That isn't a long period of time to the living, but it has meant eternity to many thousands of motorists who couldn't spare the seven seconds. They risked their lives to save them. Most everybody, in motoring across the country, has on two or three occasions hurried to cross a railroad track ahead of a train, so that they wouldn't wait. Some others valued the seven seconds so highly they paid with their lives for them.

—OH THAT IS FAMOUS.—Though Canada was not the birthplace of Dr. Edward B. Johnson, it is the home of one of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is why it is held in such esteem. In fact, for in all these countries it is sold and in demand.

—THE MAN: "Whether marriage is a fault or not, I certainly think that some are more fortunate than others in what they get."

His Wife: "Yes, I quite agree. For instance, you got me, but I only got you!"

OLD AGE PENSIONS ACT
IN OPERATION SOON

The Old Age Pensions Act will probably come into operation in Alberta in about a month, according to a statement made on Thursday by Premier Brownlee. The act, it has been decided by the executive council, will be placed under the jurisdiction of the Workmen's Compensation Board, and arrangements are being made for this board to administer the provisions of the new act. Under the proposed plan it is necessary for each province sharing in the benefits of the Dominion legislation to submit its supplementary and contributory legislation to the Dominion government through Hon. Peter Heenan, minister of labor, for final ratification and to draw up a formal agreement of operation. As soon as this step has been taken it is expected the Alberta act will come into effect. The payment of pensions will not become retroactive but will date from the time the act is proclaimed.

In a sheik's bedroom at a local hotel a few days ago were noticed such wares as a powder puff, lots of powder, lipsticks (various colors to suit different hours of the day or night), and other equipment necessary to make a man look like what he ain't. This individual will be removed to Ponoka as soon as an accommodation is offering.

BE CAREFUL

Habit is hard to overcome. If you take off the first letter, it does not change "abit." If you take off another letter you will have a "bit" left.

If you take off still another, the whole of "it" remains, which proves that you must throw it off altogether.

Spoiled His Record

AT LAST

"Hold the mouth relaxed; then push out your lips in a soft, elliptical shape. Raise the center of the upper lip until a tensing of the muscles is felt at the corners of the nose. Retaining this position, draw the corners of the lips back and up" from a book of etiquette, on how to smile. —Detroit News.

CRESTON RECTOR AND TWO
LADIES GO OVER BRIDGE

Creston, April 30.—Rev. Arthur Garlick, rector of Christ church, Creston; Mrs. Garlick and Mrs. Fred Powers were victims of a distressing motor accident this morning, in which the ladies sustained injuries that necessitated their removal to Cranbrook hospital on the noon train, while Rev. Mr. Garlick is being cared for at Creston under special medical observation, pending removal to the hospital tomorrow.

The three made up a party proceeding to Spokane in a closed car driven by Rev. Mr. Garlick. In order to pick up Mr. Powers, who resides at Camp Lister, the old route via Canyon, Lister and Huscroft was used and it was at what is known as the Huscroft school bridge that the mishap occurred.

It would appear that with the auto travelling at some speed in order to make the grade off the bridge at the south end, the car skidded and breaking through the bridge rail about half way across took a drop of 22 feet.

"Willie," asked the teacher, "what was it Sir Walter Raleigh said when he placed his cloak on the muddy sides of the road for the beautiful queen to walk over?"

Willie, the ultra-modern, gazed about the classroom in dismay and then, taking a long chance, replied: "Step on it, kid!"

for the congregation will be in the hands of the Senior C.G.I.T.—the Philomaths, with serenades by the girls. Come and wear a flower in honor of mother.

LOCAL LADY MARRIES

AT MICHEL

An interesting ceremony took place at Michel on the afternoon of Monday, April 29th, when Mrs. Annie Benson, of Blairmore, was united in marriage to Allen Cameron Flint, of Michel, the Rev. J. A. Roland, of the Michel United church, officiating.

The bride was given in marriage by her brother, R. Winstanley, and was attended by Mrs. James Robertson, while the groom was attended by James Robertson.

The church was well filled with well-wishers and as the couple stood at the altar, "O Father, All Creator" was sung by all. During the signing of the register, Mr. L. Rothal sang a solo, and presiding at the organ was Miss Armstrong.

A large number of guests were invited to the supper held in the home of Mr. Evans.

TENNIS CLUB ORGANIZES

At a meeting of the Blairmore Tennis Club, held at the Greenhill hotel on April the 10th, it was decided that the club would be again formed this year.

The meeting was fairly well attended. The election of officers resulted as follows: honorary president, Mr. G. A. Vissac; president, Mr. L. Peel; first vice-president, Mr. R. Green; second vice-president, Mr. L. P. Robert; secretary-treasurer, Mr. R. C. Old; general committee, Mrs. Kerr, Miss Fraser, Sergt. Jones, A. Tiberg, P. Farmer, R. Pinkney, W. Johnson, L. Peel and R. C. Old.

Work has been started on the courts and it is hoped to have them ready by the end of the month. It is proposed to have the formal opening on May the 24th, weather permitting, when a club tournament will be held. An entry fee of 25 cents will be charged, covering all events. All are cordially invited to become

members.

Tennis is a clean, vigorous game, with lots of exercise. Come out and get yours. For information as to membership, etc., get in touch with the secretary at the Greenhill hotel.

To save the life of a woman who was seriously ill, she was rushed by airplane from Alaska to Seattle for treatment. The woman's name was Kostenevough.

Now these good USED CARS must go

Look em over

JUST when we think our stock of Used Cars is away down . . . in comes a lot more, taken in on the Spring deliveries of Outstanding Chevrolets. And they are certainly the finest, smartest bunch of used cars we've seen in many a long day. But . . . good as they are . . . they have to go. And when you look over the cars and see the prices you'll realize they will go fast.

Come in tonight. Or as soon as you can. This chance to save dollars on a REALLY GOOD CAR is too unusual to miss.

OUT FISHIN'!

A feller isn't thinkin' mean
Out fishin'.
His thoughts are mostly good and clean
Out fishin'.
He doesn't knock his fellow men,
Or harbor any grudges then.
A feller at his finest when
Out fishin'.

The rich are comrades to the poor
Out fishin'.

All brothers of a common lure,
Out fishin'.

The urchin with the pin an' string,
Can chum with millionaire an' king.
Vain pride is a forgeful thing
Out fishin'.

A feller gets a chance to dream
Out fishin'.

He learns the beauties of a stream
Out fishin'.

An' he can wash his soul in air
That isn't foul with selfish care,
An' relish plain an' simple fare
Out fishin'.

A feller has no time to hate
Out fishin'.

He isn't eager to be great
Out fishin'.

He isn't thinkin' thoughts of self,
Or goods stacked high upon a shelf;
But he is always just himself
Out fishin'.

A feller's glad to be a friend,
Out fishin'.

A helpin' hand he'll always lend,

Our Fishin'.
The brotherhood of rod an' line,
An' sky an' stream is always fine.
Men come real close to God's design
Out fishin'.

A feller isn't puttin' schemes
Out fishin'.

He's only busy with his dreams
Out fishin'.

His fancy is a con of tan,
His creed: to do the best he can.
A feller's always mostly man
Out fishin'.

WAS IT YOU?

Someone started the whole day wrong
Was it you?

Someone robbed the day of its song
Was it you?

Early this morning someone frowned
Someone sulked until others scolded;

And soon harsh words were passed
around.

Was it you?

Someone started the day right.
Was it you?

Someone made it happy and bright.
Was it you?

Early this morning, we are told,
someone smiled;

And all through the day this smile
Encouraged young and old.
Was it you?

A little more smile, a little less
frown.

A little less kicking a man when he's
down.
Was it you?

A little more "we," a little less "I."
A little more laugh and a little less
cry.
A little more flowers on the pathway
of life,
And fewer on the graves at the end
of the strife.—Ex.

JUST BE THE BEST

If you can't be a pine on the top of
the hill,

Be a shrub in the valley—but be
The best little shrub at the side
of the rill;

Be a bush if you can't be a tree.

If you can't be a bush, be a bit of the
grass,

Some highway to happier maybe;

If you can't be a muske, then just be
a base—

But the liveliest bass in the lake!

We can't all be captains, we've got to
have crew,

There's something for all of us
here;

There's big work to do and there's
lesser to do,

And the task we must do is the
near.

If you can't be a highway, then just
just be a trail;

If you can't be a sun, be a star.

It isn't by size that you win or you
fall—

Be the best of whatever you're
done.

Here and There

The contract for a new fast
steamship to ply between Saint
John and Diego River, N.W.B., will
shortly be awarded by the Canadian
Pacific Railway. It has been
announced by E. W. Beatty chair-
man of the board of the company.
The ship will be the highest
standard, 240 feet in length, cap-
able of carrying 500 passengers,
and having 44 state rooms for
night passengers. The vessel will be
accommodation for 50 motor cars.
The speed of the vessel will be 22
knots, an unusually high speed for
a short trip.

The sap ran freely this spring,
but the bark had yet to surpass
the record for last year when
there was an increase of four million
pounds of maple sugar regis-
tered by government statisticians.
The product was valued at over two
million dollars, and Quebec headed
the list of provinces as producer,
followed by Ontario.

The daily pay-roll of the Canadian
Pacific is \$267,000; the daily
outlay for material and supplies is
\$20,000, and the daily tax bill over
\$20,000.

Prince George, Duke of Gloucester,
will open the hotel on July 1, and
early in June officially open the
great Royal York Hotel of the
Canadian Pacific Railway in Tor-
onto, a hotel being announced by E.
W. Beatty, K.C., chairman and
president of the company. The
building is the tallest in the British
Empire, towering 23 stories above
the pavements of the Queen City.

In a recent Calgary high-school
composition contest in English can-
didates from schools in Canada won
respectively in Canada, England,
Lithuania, Roumania, and Russia.
Of the Education candidates one
was of French, one German, and
one of Scotch extraction.

IF I KNEW

If I knew the box where smiles were
kept,

No matter how large the key
Or strong the bolt, I would try so
hard

To would open, I know, for me.
Then over the land, the sea, broad-
cast

I'd scatter the smiles to play
That the children's faces might hold
them fast

For many and many a day.

If I knew a box that was large
enough

To hold all the frowns I meet,

I would like to gather them every one

From nursery, school and street.

Then, folding and holding, I'd pack

And, turning the monstkey key,

I'd hire a giant to drop the box

To the depths of the deep blue sea.

Teacher: "What is a cannibal, Tom-
my?"

Tommy: "Please, teacher, I don't
know."

"Well, if you ate your father and
mother, what would you be?"

"An orphan, miss."

First Old Maid: "Just think, Sarah,
last week I found two men under my
bed."

Second Old Maid: "Oh, Libby, quit
your bragging."

"Surely, Miranda, you're not going
to marry again when the Lord just
took Smith!"

"Yes, I shuah am," replied Miran-
da. "As long as de Lawd takes 'em,
so will I."

TO READJUST CAPITALIZATION OF THE C. N. R.

Ottawa.—For the first time since the creation of the National Railways system, the government of the day, through a responsible minister, pledged itself to the policy of readjusting the capitalization of the public owned railway.

In the special committee of the House of Commons which deals with accounts of the National Railways, this question was discussed, and Hon. Charles A. Dunning, minister of railways, stated unequivocally that he regarded the recapitalization of the system as being of "very great importance" and that the government desired at the earliest possible moment to deal with it.

Curiously enough, opposition to the recapitalization of the National Railways arose immediately from Conservative members of the committee, R. B. Hanson, Conservative member for York-Susbury, who has taken a leading part in the work of the committee, at once asserted that the carrying out of such a policy would bring demands for reductions in rates. He thought this was a very strong argument against any action being taken.

Mr. Dunning and Sir Henry Thornton, however, held out for the recapitalization, pointing out the innumerable advantages which would follow, and asserting that only in this way could Parliament decide justly by the able and conscientious officials who are endeavoring to make the system a complete success and who find that their best efforts avail nothing in overhauling the needs of a huge, unwieldy and unjustifiable capitalization.

Mr. Dunning introduced the subject and in the course of his remarks made it quite clear that the action probably would have been taken this session had it not been for the intervention of junior shareholders of the old Grand Trunk Railway, who are seeking the right to sue the government for compensation on account of their securities.

He failed to inform the committee as to whether or not the government would permit these shareholders to take action in the courts, but it is commonly believed that a bill will be issued and the case carried to the privy council.

Increase In Manufacturing

Products Of Prairie Plants Last Year

Muchs Creation

Winnipeg.—Manufactured products of the prairies during the past year exceeded the value of \$500,000,000 in value, according to J. W. Archibald, retiring chairman of the prairie division of the Canadian Manufacturers' Association, at the annual meeting of the association.

Utilization of the mineral wealth of northern Manitoba and Saskatchewan, and exploitation of Alberta's oil resources promises tremendous increases in the industrial output in the three central provinces, he stated.

Starts Schedule May 19

Winnipeg, Man.—The Confederation Canadian National Railways crack passenger train operating from Toronto to Vancouver by way of Winnipeg, Regina, Saskatoon, and Edmonton, will go into service on May 19 from the east and on May 21 from the west. This train replaces the National which in the winter months runs between Toronto and Winnipeg.

Receives Fellowship

Saskatoon, Sask.—Dr. William Allen, professor of agricultural economics at the University of Saskatchewan, has had a fellowship conferred on him which will meet the expenses of attending a conference of agricultural economists to be held during August in Devonshire, England.

Spain Guards Against Plague

Madrid.—A royal decree has been issued forbidding the importation of all classes of fresh fruits, plants and trees from Canada, the United States, Japan and New Zealand. The action was taken as a defense measure against insect plagues.

Table Is Restored

Halifax, N.S.—The Halifax and Bermudas cable, which has been down for some time, has been restored, re-establishing direct communication between Canada and the British West Indies via Bermuda.

W. N. U. 1783

Win Empire Competition

King's Trophy In Elite Match Goes To South African Cadet

Ottawa, Ont.—Cadets from South Africa won the King's trophy in the rifle match in 1928, which was participated in by 85,000 boys from all parts of the Empire. Canadian cadets won this trophy in 1927, and finished second in 1928. The results have just been made public by the National Rifle Association.

Commenting on Canada's performance, the National Rifle Association report says: "Not only does Canada possess many more brilliant individual shots than any other country but she has a limited number of units capable of achieving very special distinction. When mass efficiency becomes the principal object of the many, and fewer low scores have to be included in her national team, the premier prize, the King's trophy will return to the Dominion."

While Canadian boys have lost the King's trophy they have had other successes. The Empire competition medals, won 22 silver medals which are awarded for scores of 99 and 100 points, and 152 bronze medals for scores of 97 and 98. The rest of the empire combined won a total of only 124 of these medals.

Will Perform Election Duties

King George Desires To Carry Out Usual Royal Functions

Dogger, Suez Canal, England.—The steady process is being made by the King in permitting the drafting of tentative plans for future functions, and there is every prospect these will be carried out. Transfer of the court from Bognor to Windsor Castle before Whit Sunday, May 10, is contemplated in view of His Majesty's expressed desire to carry out the usual royal functions connected with a general election. The King will remain at Windsor Castle until the political situation permits him to go to Sandringham in Norfolk, where the east coast sea air has always agreed with His Majesty.

It is being suggested that a thanksgiving service for the King's recovery should be held in Westminster Abbey at the end of July, with similar services in other large cities.

Convict Train Travels West

Seventy Prisoners Are Sent To Stony Mountain Penitentiary

Winnipeg.—The convict train, bearing 170 prisoners from Kingston, Ont., to western penitentiaries, reached here recently. Seventy prisoners were immediately transferred to Stony Mountain penitentiary, a few miles north of Winnipeg, while the remaining hundred continued the westward journey to Prince Albert.

The convict train consisted of four steel coaches, the windows of which were heavily barred. Guards armed with rifles, were aboard the train, while during the stop forty provincial policemen, also armed with carbines, stood guard.

The journey from the penitentiary at Kingston was uneventful, according to the prison guards.

Lucky Gold Strike

Ontario Farmer Makes Discovery While Digging Post Holes

Matheson, Ont.—W. Rhodes, Peatty township farmer, has just finished digging a \$60,000 post hole.

A pioneer on the edge of the northern clay belt, he decided to fence in more of his property. He used dynamite to dig his post holes. The first blast uncovered free gold.

Rhodes sold his find for \$60,000 cash and a large interest in the property.

Large Liners Projected

London, England.—The Cunard line is considering the construction of two new trans-Atlantic vessels which would be the largest in the world. It was stated on reliable authority, that these liners would have a displacement of 70,000 tons, length more than 1,000 feet and breadth of more than 105 feet. They would be equipped with 150,000 horsepower engines.

Message For American People

San Francisco, Calif.—Sir Hubert Bland, Canadian Minister of Trade and Commerce, said to the American public were the expression of a wish that his people "would rise above indigencies and insults to impose some beauty to the utter ugliness of the industrialization of the West."

Airmen Killed At Toronto

Machine Went Out Of Control and Crashed Near Flying Field

Toronto.—Noel Marshal, and William Mackenzie, residents of Toronto, were killed when their aeroplane went out of control and crashed near the Leaside flying field.

It was reported that Mackenzie who had but recently been granted a pilot's certificate, was in charge of the Gipsy Moth plane, with Marshal, a qualified pilot, as a passenger.

The plane was said to have been but 150 feet from the ground when it went out of control and crashed with such force the engine buried itself.

Calendar Expert At Ottawa

M. B. Cotsworth Discussed Matter With Government Members

Ottawa.—To aid in the suggested establishment of a national committee in Canada to consider proposed calendar reform and its effect on the Dominion, M. B. Cotsworth, of Rochester, N.Y., originator of the 13-month calendar idea, has paid a special visit to Ottawa. Mr. Cotsworth conferred with Dr. O. D. Skelton, under-secretary of state for external affairs, and H. H. Coats, Dominion statistician, respecting his proposition.

ITALY DEMANDS EQUALITY AS TO NAVAL POWER

Geneva.—The problem of navy parity between France and Italy loomed out as a reef which might imperil the success of any five-power naval conference to reduce armaments.

Premier Mussolini is reported here as firm as a rock in demanding parity for Italy with France, both on land and sea, while France apparently fails to see the justice of such demands.

France thinks her communications with her extensive colonial possessions and her mainland open to two oceans are sufficient reasons for her having naval forces superior to Italy's.

This problem of satisfying Italy at least, on paper is worrying delegates to the preparatory disarmament commission. Some are beginning to worry whether a real advance on the naval problem could not be made by establishing first of all an understanding between the United States and Great Britain.

The Associated Press correspondent has received the impression that France would place no obstacle in the way of such a preliminary understanding if it did not affect her position in relation to other continental powers. A high French authority recently submitted a summary of the speech of Hugh S. Gibson recently, because it gave a magnificent impetus to reduction in armaments as a whole.

This personality explained that France desired to hasten general reduction in armaments and hoped that delegates would even be able to submit a draft treaty to the September assembly of the League of Nations, thus permitting an international conference by 1930. This would involve a second session of the preparatory disarmament commission during the present summer, until which time he thought the naval question had better be adjourned.

British Election In May

London, England.—Premier Baldwin announced in the House of Commons recently the prorogation and dissolution of parliament for May 10, nominations for seats in the House on May 20, and polling on May 30.

MORE NORSEMEN FOR THE WEST

This photograph was taken at Winnipeg after the arrival of the first immigrant special train this season, over the Canadian National Railways, March 20. There were 205 broad-shouldered Scandinavians in a total of 369 arrivals, which included 22 British settlers. Two trains, which followed the first special a day later, brought the total of new-comers up to nearly one thousand. At least half were Scandinavians. All the immigrants have been placed by the Canadian National Railways' Colonization Department.

A CHARMING PRINCESS

Germany Wants Aerial Bombs Abolished

But Objections Were Raised By Several Countries

Geneva.—The German proposal to abolish the use of aerial bombs in warfare was defeated before the League's preparatory commission on disarmament. Only five countries were in its favor—Germany, Sweden, Holland, China and Russia. Those against it, including Canada, the U.S. and Great Britain, registered their objections with a rider that a negative vote was not to be interpreted as in any way authorizing the use of aerial bombs against civil populations.

Count Von Bernstorff, of Germany, pointed out the toll that could be exacted by bombing planes over Paris, Berlin and London, and said that this method of warfare was horrible and cowardly, because the combatants were protected by defensive appliances.

F. Sokal, of Poland, said no one would deny the horror of such methods but the conference had not reached that point and under the Kellogg-Briand peace pact was not likeable to reach it. When war had been outlawed, it was logical to begin codifying rules of war, he remarked.

M. Litvinoff, of the Soviet, however, interpolated that Poland was among those who last year rejected the Russian proposals for complete abolition of armaments.

Agrees With Gibson's Speech

British Government Shares Wish Of U.S. On Disarmament

London, England.—Sir Austin Chamberlain, British foreign secretary, told the House of Commons that the British government shares fully the hope and wishes of the United States government on disarmament as set forth in Ambassador Gibson's speech at Geneva.

"The government desired me to take this opportunity to express its warm appreciation of the cordial conciliatory spirit shown by the American delegates and give assurance on its behalf that in the same spirit of amity we have manifested our deepest sympathy. We trust before long to have the opportunity of joining with all your majesty's subjects throughout the Empire in a prayer of thanksgiving for your safe recovery and in a profound hope your majesty may long be spared to reign over your loyal and devoted subjects."

Succeeds Lord Revelstoke

Paris.—Sir Charles Addis, director of the Bank of England, and noted English financial expert, has been appointed to succeed Lord Revelstoke as head of the British delegation at the conference on reparations. Lord Revelstoke died suddenly on April 19, wearied by the commission's abortive attempts to reach some settlement of the tangled problem of German payments.

Gibson's Proposals

Geneva.—It was understood here that Ambassador Hugh S. Gibson, American spokesman at the preparatory disarmament conference, would prepare a memorandum outlining United States disarmament proposals and hand this later to delegations of the great powers.

Anti-Smuggling Treaty May Go To Arbitration

Washington.—Terminating the diplomatic conference on the "Treaty Alone," Canada replied to the United States' rejoinder to the protest against the sinking by a coast guard gun boat on the high seas of the Canadian schooner suspected of conspiracy against American liquor laws.

Hon. Vincent Massey, the Canadian minister, delivered to Secretary Henry L. Stimson, a note which is expected to reveal the Dominion's attitude to the "Treaty Alone" case in particular, and the scope of the anti-smuggling treaty of 1924 in general.

It is generally accepted here that the United States wants the case to go to arbitration. It is expected Canada will accept. Arbitration probably will proceed under the provision of the 1924 treaty itself, which leaves any dispute over the seizure of a ship to a tribunal composed of representatives of both countries.

Because of the whole question of the right of "hot and continuous pursuit," under the treaty will be involved, the importance of the negotiations will transcend the single case of the "Treaty Alone."

The British government is sitting back and letting Canada fight the case because the ship is of Canadian registry. But the decision will affect some far-reaching questions of territorial waters, and United States rights under the special treaty to claim the 12-mile limit specified in its own tariff act.

The treaty was signed by Great Britain, and technically London would have the right to say who would represent the British Empire in the arbitration, but it is generally agreed that some prominent Canadian would be appointed, and he will serve for the Empire.

It is suggested here that the former secretary of state, Frank B. Kellogg, may represent the United States.

H. B. STRAITS ARE OPEN FOR FOUR MONTHS OF YEAR

Ottawa.—Hudson Strait will be safe for navigation for at least four months in the year. The report of the Hudson Strait expedition for 1927-28, tabled in the House of Commons gives the probable period from the middle of July to the middle of November.

In his report N. B. McLean, officer in charge, says in part:

"Taking July 19 as the opening date for the Strait, and November 16 when ice was first reported at Nottingham in 1927, as the closing date, we get a season of 120 days or practically four months, during which commercial vessels could have navigated with safety and without assistance of ice breakers."

A further indefinable period would be added, he continues, with the use of ice breakers.

Some doubt is expressed in the report that two years' observations are sufficient on which to base any accurate statement on the length of the navigation season.

The extremes of temperature are given as 18 degrees Fahrenheit below zero at Nottingham in January, and 50 degrees above zero in July at Victoria Bay.

Ice was noted on 39 days and on 14 of these it was dense. Many icebergs were seen. They drifted down through Davis Strait, were carried west along the north shore by the current, and eventually met the easterly current on the south shore which took them into the Atlantic.

Three direction finding stations in addition to those at Cape Hope, Advance, and Nottingham Island are recommended, and two ice-breakers, one based at Fort Churchill and the other at a suitable harbor in the strait.

"The knowledge that an ice breaker is available if necessary," the report states, "gives confidence to masters, owners and shipping interests generally."

Other recommendations deal with charting the strait and providing a fuel base.

Observe Anzac Day

Australia. Commemoration Landing Of Troops At Gallipoli

Sydney, N.S.W.—Anzac Day, set aside to mark the famous landing of the Australians and New Zealand troops at Gallipoli with the aid of strong naval forces on April 23, 1915, was fittingly commemorated in Australia and New Zealand. The outstanding New South Wales feature was the march of 20,000 ex-service men proposed at Sydney.

At Canberra, the Federal capital, an impressive memorial service was attended by Premier Stanley Bruce and his cabinet, while Lord Stonehaven, Governor-General of Australia, unveiled the commemoration stone of Australia's war memorial which will cost \$1,250,000.

Typhoid Fever At The Pas

Serious Epidemic Believed To Be Caused By Water

The Pas, Man.—Active measures to stamp out the outbreak of typhoid fever, which already has taken a toll of three lives, and stricken more than a score of persons in the little northern railway town at Mile 327, on the Hudson Bay Railway, are under way. Four doctors now are in the town; all residents have been inoculated, and the water supply has been chlorinated. Impure water is believed to have caused the epidemic.

Twelve of the stricken residents of the town have been conveyed to hospital in The Pas, while eight others are confined to the little hospital at Mile 327.

Organize Wheat Pool

Lincoln, Neb.—Wheat-raisers of Nebraska and Wyoming to the number of 200 have effected organization of a wheat pool, giving it the name of the Middle West Market Association non-stock co-operative. The Pool was said to represent 13,000 grain raisers in the two states and was declared to be the largest in the middle west.

Air Survey Completed

The Pas, Man.—Arriving here, Captain Charles Sinton, pilot, and party completed an 8,000-mile aerial voyage which took them into the northern wilds, far beyond Port Churchill. Motion picture of the northern scenes and of the inhabitants, the Eskimos, were taken. This was the main objective of the journey.

At the Orpheum Friday and Saturday

"My sister is awfully lucky," said one little boy to another.

"Why?"

"She went to a party last night where they played a game in which the men had to kiss a girl or pay a forfeit of a box of chocolates."

"Well, how was you sister lucky?"

"She came home with thirteen boxes of chocolates."

Judge: "Have you anything to offer the court before sentence is passed?"

Prisoner: "No, yer honor; me lawyer took me last dollar."

Dick: "What's good to take for a cold?"

Jack: "Oh, quinine and whiskey, or quinine and brandy, or quinine and gin. But you should be appre-
ciated of the quinine—you don't want much of it."

INSPECTOR K. DUNCAN PROMOTED TO EDMONTON

with them.

A gracious little event took place at the headquarters of B Division, A. P. Police, Red Deer, on the rearrangement of the posts of the division and the transfer of Inspector Duncan to A.P.P. headquarters at Edmonton, where he becomes head of the Criminal Investigation Department of the A.P.P. Headquarters Sergeant J. T. Holmes, at Red Deer, becomes head of the Red Deer sub-division with Constables English and Leyland at Red Deer, Constable Jas. Muir having since been transferred to Edmonton.

Although Inspector Duncan has only been head of this division for a year, he has won the esteem and confidence of the officers and men, who joined, together with the City Police at Red Deer, in presenting him and Mrs. Duncan with a handsome bronze "Mystery" statue clock, and Stewart Duncan with a silver wrist watch. Miss Yvonne Bernier, the stenographer, who has also been transferred to Edmonton, was presented with a silver vanity case.

Inspector Bavin, head of the Calgary division to which Red Deer subdivision will now be attached, was present, and, in making the presentations, spoke of Inspector Duncan's devotedness to his work, and the systematic way in which the business of the division had been handled. The Inspector was on duty day and night, not to mention Sundays, and had established a most efficient organization, while at the same time he was kindly and helpful to all the staff. They would all wish him every success in the increase of responsibility which had been thrown upon him.

Other kindly words were said by the officers and men present, and Inspector Duncan, in a few heart-felt words, expressed his appreciation of the kindness shown to him and his family, and of his pleasant relations

At all points visited, including Edmonton, Boston and Washington, D. C., a helping hand was always met with, particularly from representatives of Rebekah lodges, to all of whom Mrs. Howe feels grateful.

The open season for golf was declared last week. They can be shot anywhere from now on.

At the early part of the week from Boston, where she had been with her eldest child for specialist consultation, followed by dancing, which was enjoyed until midnight.

The enjoyable evening was brought to a close by all the girls wishing Jeanette the best of luck in her future undertakings.

Among those present were Rev. Father Harrington, Mr. and Mrs. T. Murphy, Mrs. J. Chaput, Mrs. Bond, Mrs. Picard, Mrs. Maniquet, Misses J. Thibodeau, A. Picard, M. E. Duffy, F. Fabro, J. Dutil, Kubie, A. Thompson, I. Sartoris, L. Brunetto, B. Pozzi, K. Kubic, M. Schlosser, D. Drain, La Marcial, J. Johnson, H. Butna, E. Christy, R. Aschacher, G. Huguet.

At the close of this program, Miss Aileen Picard, president, presented Miss Thibodeau with a lovely pouch bag as a token of appreciation for the work done in Blairstown, both for the church and the league.

Refreshments were then served, followed by dancing, which was enjoyed until midnight.

JUNIOR C.W.L. FAREWELL MISS J. THIBODEAU

On Monday evening, April 29th, the Junior C.W.L. held a farewell party in the opera house in honor of Miss Jeanette Thibodeau, who left on Tuesday morning for Lethbridge, where she has undertaken her new duties as operator at the Alberta Government Telephones.

The party opened with the singing of "She's a Jolly Good Fellow," and this was followed by a short program consisting of, address by chairman, A. Picard; duet, Misses M. Schlosser and H. Butna; recitation, D. Drain; dialogue, Misses F. Fabro and J. Dutil; piano solo, A. Thompson; recitation, Misses V. Weber, G. Huguet, L. Marcial and J. Johnson; piano solo, Miss B. Pozzi; song, Miss L. Brunette; dance (sailor's hornpipe) Miss Irene Sartoris; dialogue, F. Fabro and J. Dutil.

At the close of this program, Miss Aileen Picard, president, presented Miss Thibodeau with a lovely pouch bag as a token of appreciation for the work done in Blairstown, both for the church and the league.

Refreshments were then served, followed by dancing, which was enjoyed until midnight.

Radio--An Agency For Peace

The sittings now being held by the Royal Commission on Radio appointed by the Dominion Government to study the whole question of broadcasting, and make report to the Government, as to best policy for Canada to adopt in the national interests of the whole Dominion, is having the effect of directing attention from the purely local and entertainment features of this latest of great modern discoveries and causing people to appreciate more fully the tremendous possibilities of aerial communication, both in a national and international sense.

While undoubtedly there is a feeling of regret in Canada, that, because of natural causes, it is much easier for people in Western Canada to "listen in" on stations in the Central Western States than it is to "get" stations in Eastern Canada, and for Eastern Canadian listeners to receive the programmes broadcast from New York, Philadelphia, and other Eastern United States cities than it is for them to "tune in" on Western Canadian stations, a condition for which it is hoped the present Radio Commission can find some solution, the fact remains that a closer community of interest between Canada and the United States, and consequently a still better understanding, is being developed by means of the radio. And community of interest and understanding is the greatest of all bulwarks to Peace.

But to many in this country it will come as a welcome surprise to learn of the great strides made by radio in Europe and the effect it is having in promoting greater understanding among the diverse nationalities and jangues of that war-affected continent. It is almost inconceivable that within less than eleven years of the signing of the Armistice ending the Great War, the radio should be used in Germany and England to the extent that it is; that schools children but adults, French language; that international "link-ups" between Germany, Poland, Austria, Hungary, France, and other countries are being regularly carried out, so that people in Paris and Warsaw can listen to German concerts in Berlin and Hamburg, and the German people can enjoy the opera in Paris, or a great symphony orchestra in Vienna or Budapest.

There are some good people in Canada who still retain the old fashioned idea that it is unpatriotic, and liable to undermine British institutions in this country, if children are taught in our schools to speak and read French, German, or any language but English. In entertaining such ideas Canadians are far behind the times; they are not nearly so far advanced as they are in England and other countries where the learning of foreign languages is compulsory. If every Canadian child, whether of British or French descent, was obliged to learn both English and French, Canada would in a generation become more powerful, influential and prosperous. It would open to our people the rich literature of both races; it would give us greater prestige among all nations; it would help to promote our export trade in all the markets of the world. In this Canada, by reason of its two great races, has an opportunity no other nation enjoys, yet we are not only neglecting it, but many people urge that we shall be disloyal to our British connection to encourage it. Yet Britain herself is doing it.

It is predicted that within three years, five years at the most, Canadians will, through the development of national broadcasting at home, and the use of the beam system of wireless across the ocean, be able to sit in their homes and "listen in" on the finest programmes in the world broadcast from London, Paris, Berlin, Vienna, and other European centres of culture, art and music.

We can now talk with Europe by telephone from the heart of Canada's prairies and the day is fast approaching, so those in a position to have automatically what when we will be able to have a constant communication with Europe, receiving the best they have to offer in public addresses, vocal and instrumental music, and the important news of the day. In turn, Canada will be brought equally close to them. And, in all probability, "seeing" Europe and European happenings through the instrumentality of the radio will more or less rapidly follow "hearing," just as, in reverse order, the "talking" picture has followed the silent movie.

And these things are all to the good, in the cause of world peace. As we know people and understand them our prejudices and suspicions are removed. We learn they are human just like ourselves; that they have high ideals and are inspired by lofty motives; that they love the things we love, and hate the unclean, the ugly, the vicious, just hate them. As we come to understand their problems, difficulties and aspirations, and as we come to understand ours, mutual sympathy will develop, followed by a desire for co-operation, rather than antagonism.

It is only so, through mutual understanding, that permanent world peace can be maintained and the maximum of true progress be made.

Cuticura Heals Face Disfigured With Itchy Pimples

"I had pimples all over my face. They were red, sore and red. Some of them were large and others small. Some of them festered and scabbed over, and itched and burned causing me to scratch. Scratching caused eruptions and infection which prevented me from sleeping. They disfigured my face for many weeks." I tried different remedies without any success. I then used Cuticura Soap and Ointment and it was only a few weeks before my face was completely healed, after using two cans of Cuticura Ointment." (Signed) Miss Harriet Hamilton, Box 772, Yarmouth, S. D., Minn.

Make Cuticura Bar and Ointment your everyday toilet preparation and have a clear, sweet skin, soft, smooth hands and a healthy complexion. Cuticura is a registered trademark.

themselves, conform to the economic law of diminishing returns. The Canadian Government, accordingly, has had for a main object the prevention of depletion, the enforcement of close seasons, the forbidding of obstructions and pollutions, and the regulation of nets, gear and fishing operations generally. In addition, an association of fish culturists, the Canadian Society of Fish Culture, has been organized, the Dominion operating 25 main hatcheries, 6 subsidiary hatcheries, and 4 salmon rearing ponds in 1927.

Minard's Liniment for cuts and bruises.

False Economy

There are not many people who would die of starvation rather than dig into their savings, but we often see men who do not know how to enjoy their money. They save by denying themselves the natural pleasures of life and in the end are forced to leave their money to people who never helped to earn it.

At 40° degrees below zero some metals, such as silver and copper, lose their resistance to electricity, thus becoming non-conductors.

Simple—Her face was like five miles of detour.

Minard's Liniment good for tired feet.

Measuring Lightning Flash

No Part Of It Ever Lasts For Appreciable Time

A lightning flash takes about one-seventhousandth of a second to complete itself and no part of it lasts more than approximately one-thirty-five-hundredth of a second. This is the first time in history that the speed of a lightning flash has been measured. It has also been proven that lightning starts from the clouds and the ground at nearly the same instant, and approximately one-seventhousandth of a second later the two ends unite in mid-air. These facts were determined by Dr. C. D. Boys, a British physicist, who has been attempting hundreds of photographs for the last twenty-six years, until a stroke of lightning in New York at last gave him this information.

Northern Air Ports

Settlements In Northern Manitoba To Have Air Mail Service

Manitoba's northern settlements of Oxford, Godslund, and Island Lakes will be added to the growing chain of northern air mail points of call. Hon. P. J. Venot, postmaster-general, announced in the House of Commons:

Mr. Venot stated that arrangements had been completed for the conveyance of mail to and from these northern points once a week by aeroplanes of the government forestry patrol at Norway House at the north end of Lake Winnipeg.

RHEUMATIC PAINS

Cannot Be Rubbed Out — The Trouble Must Be Treated Through The Blood

The pain of rheumatism is something that you cannot rub out. Every sufferer from rheumatism has been advised to rub this or that liniment or oil on the affected part, but the trouble still remains. This blood and rheumatism come together and if they are properly treated will go together. Anæmia is the blood and thin tissue something that can be corrected, so why not build up the blood until the rheumatic poisons are driven out?

This is exactly what is done in the treatment of rheumatism by Dr. Williams' Pink Pills. Rheumatism in any form shows improvement as the blood builds up, and when the veins in the blood are filled and driven out, rheumatism disappears and does not return so long as the blood is kept rich and red. The great value of Dr. Williams' Pink Pills in the treatment of rheumatism is proved by the case of Mr. Thomas Martin, of Novar, Ont., who was troubled with rheumatism so badly that he could hardly walk and suffered great pain. He had medical treatment but did not get any relief. Then decided to try Dr. Williams' Pink Pills, and after taking the pills for some time the trouble disappeared and has not since shown the least sign of returning.

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicinal Co., Brockville, Ont.

Pedigreed Hatching Eggs

A record shipment of pedigree White Leghorn hatching eggs was made recently by the Poultry Breeders' Association of British Columbia to a hatchery at Petaluma, California. The shipment consisted of 36,000 eggs valued at \$5,000.

Illness Kept Her From Work

"I took Lydia E. Pinkham's Vegetable Compound because I was so sick every month that I had to keep my bed for two days and I suffered so that I felt badly all the time. I had been working in a factory but for a long time was not able to work at all. My friends told me of the Vegetable Compound. I am now sound and well and have gone back to work. I have a good appetite, my color is good and I am in good spirits." —Evelyn Bourque, 132 Alma Street, Moncton, New Brunswick.

A DOZEN different things may happen to individuals, there's just one thing you need ever do to get immediate relief. Aspirin is an absolute antidote for such pain. Keep it at the office. Have it ready in the home. Those subject to frequent colds, neuralgias, etc., you've no idea how much Aspirin can help. It means quick, complete relief to millions of men and women who use it every year. And it does not deplete the heart.

ASPIRIN

Aspirin is a Trademark Registered in Canada

New Death Ray

Electrical Driver Recently Invented Develops Three Million Volts

H. H. Nelson-Smith, engineer on the staff of the Pacific Gas and Electric Company in San Francisco, invented a "death ray" device had been developed by J. B. Martin, electrical engineer of San Francisco. The new device, he said, was capable of developing three million volts.

The Martin machine, Nelson-Smith stated, is housed "somewhere in San Francisco," but its exact whereabouts is being kept secret. The invention has been working in co-operation with the electric company.

"Anyone who got in the path of the ray would be instantly snuffed out, the chemical composition of his blood would be changed and the life cells disintegrated," he said.

Patents This Asthma Remedy. A grateful user of Dr. J. D. Kollegge's Asthma Remedy finds it the only remedy that will give relief, though for thirteen years he had sought other ways to relieve his asthma. No matter if the corn is hard or soft. Let it be on top or between the toes. Putnam's CORN EXTRACTANT will remove it without pain.

Putnam's CORN EXTRACTANT. It does the work—and roots out the corn, quickly and with-out pain.

Health and Motor Accidents

Men with high blood pressure should use extraordinary care in driving automobiles, according to recent experiments conducted by physicians of the National Research Federation. These experiments showed a definite relationship between health and motor accidents.

Men with high blood pressure were found to have more than twice as many accidents as those with normal pressure.

No surgical operation is necessary in removing corns if Holloway's Corn Remover is used.

Forty automobiles can be driven abreast at low tide on the beach of Jacksonville, Fla. The sand is as firm as on a paved street.

Minard's Liniment relieves pain.

Einstadt should make a good trainee or bellhop, as nobody can understand what he is talking about.

These tribes the professor said, were descendants of Magyar nomads who left their homeland to conquer Europe with the army of Attila 1,400 years ago.

R.C. Salmon Pack

The position as regards the salmon pack of British Columbia is improving under present conservation methods. The 1928 pack is now reported at 2,035,637 cases, which is only 29,561 cases lower than the record pack of 1926. The pack of pinks totalled 792,362 cases, or 19,369 cases more than the 1926 record.

Miller's Worm Powder can do no injury to the most delicate child. Any child, or infant in the state of adolescence who is infested with worms can take this preparation without a qualm. It is a sure relief and a full protection these destructive pests, which are responsible for much sickness and great suffering to legions of little ones.

The Teacher—You have failed in geography again.

Bobbie—No'm. You only ast me did I know the capital of Minnesota and I said I didn't which was true.

Worms cause freckles and rob the infant of sleep, the great nourisher. Mother Graves' Worm Extractant will clear the stomach and intestines and restore healthfulness.

From July 24 to 17, 1911, 88,15 inches of rain fell at Baguio in the Philippine Islands. More than 45 inches fell on one day.

Neuralgia succumbs to Minard's Liniment.

Attractions For Tourists

Vast Extent Of Canada Offers Visitors Interesting Holiday

Canada has a million square miles of forest, countless lakes and thousands of miles of rivers and brooks, providing the finest hunting, fishing, canoeing and camping. The vast extent of Canada and the diversity of conditions in different sections make it difficult for the prospective visitor who is not familiar with the country to decide which particular section interests him most. To overcome this the Department of the Interior has published "Vacations In Canada," a 96-page handbook which sets forth the attractions which Canada offers to tourists and sportsmen. This booklet describes the tourist attractions of each region in the Dominion—the climate, the motor roads, the points of historic interest, the fishing, hunting, canoeing and camping, the popular summer and winter resorts. In addition it gives a summary of the Canadian customs regulations. "Vacations In Canada" is distributed without charge, from the Natural Resources Intelligence Service, Department of the Interior, at Ottawa.

Who's Oratorical Contest

Marceline Brunet, 17, of Norwood, Man., representing the French-speaking schools of the province, won the Manitoba oratorical contest the other day. She was opposed by ten entrants from English-speaking schools in the final match. Miss Brunet will represent Manitoba in the Canadian oratorical finals. She attended convent at St. Adolphus, Manitoba.

Sore Corns Drop Off If You USE "Putnam's"

When you notice any sign of callous on the feet or toes—that's the time to paint on a few drops of PUTNAM'S CORN EXTRACTANT. No matter if the corn is hard or soft. Let it be on top or between the toes. Putnam's CORN EXTRACTANT. It does the work—and roots out the corn, quickly and with-out pain.

More than 50,000,000 rabbit skins are made into felt hats in the United States every year.

Could Not Sleep Heart Would Start Pumping and Pounding

Mrs. Fred. P. Avell, 136-12th Ave., Calgary, Alta., writes: "I was bothered so much with my heart I could sleep. I would awaken in the night screaming. I would start pumping and pounding. A neighbor lady told me to try

The man who is color blind has a sickness of a time these days picking his finger from the flock.

A kid at the local school was asked: "Is water-works one word?" The kid replied: "No, it is two words with a hyphen between."

At the regular meeting of Crowview Rebekah Lodge on Thursday night last, an official visit was made by Sister O. Martin, of Hardisty, as president of the Rebekah Assembly of Alberta. During the meeting the Rebekah degree was exemplified, following which a presentation was made to the president on behalf of Ray of Hope and Crowview Rebekah Lodges. Refreshments and speeches followed. Coleman and Bellevue were well represented at the meeting and took a very active part at the banquet table.

The towns of Red Deer, Lacombe, Wetaskiwin and Edson have recently established town planning commissions, to operate under the new Town Planning Act.

Motor car purchasers are adding to the highway burden at the rate of 100 miles of new automobiles weekly. At the end of 1929, the combined length of trucks, busses and passenger cars will be approximately 65,000 miles.

Because the residents of Claremont, California, decided that conservation was a better policy than destruction, that city will hold no flower show this year. It was decided that wild flowers, because of their increasing scarcity, should be protected in every way. In addition, the community has encouraged the planting of wild flowers in yards, parks and vacant lots.
